

APIC May Free Virtual Education Event

May 17th from 12:00 pm—1:00 pm

***Candida auris* - Addressing the Emerging Pathogen**

With Rebecca Battjes, MPH, CIC, FAPIC

Objectives:

1. Distinguish *Candida auris* (CA) from other *Candida* species
2. Discuss the epidemiology and current prevalence of CA
3. Understand why CA is an emerging threat
4. Review recent CA outbreaks
5. Summarize outbreak recommendations for CA prevention and control
